Neo-Flex® Underdesk Keyboard Arm

- Lift, lower and tilt your keyboard for optimum comfort
- Extends and retracts from under the worksurface; stores under the worksurface when not in use
- Tray accommodates larger keyboards and mouse equipment with large one-piece surface
- Easy and flexible installation: Inconspicuously clamps to front edge of desktop; or remove clamp and attach with four screws under the surface
- Ball-bearing slides produce smooth motion
- Durable and sturdy construction: Arm and slide are made of steel and tray is composed of robust phenolic material
- Provides a solid and stable data-entry platform

A SOLID AND STABLE DATA ENTRY PLATFORM

This adjustable keyboard platform is a necessity in any word-processing office application. Match this accessory with a monitor stand or arm for a complete ergonomic desktop solution.

Provides a full range of height and tilt adjustment to accommodate a wide range of computer users. Stores the keyboard conveniently under the worksurface, where it can be pulled out whenever it's needed.

Neo-Flex Underdesk Keyboard Arm

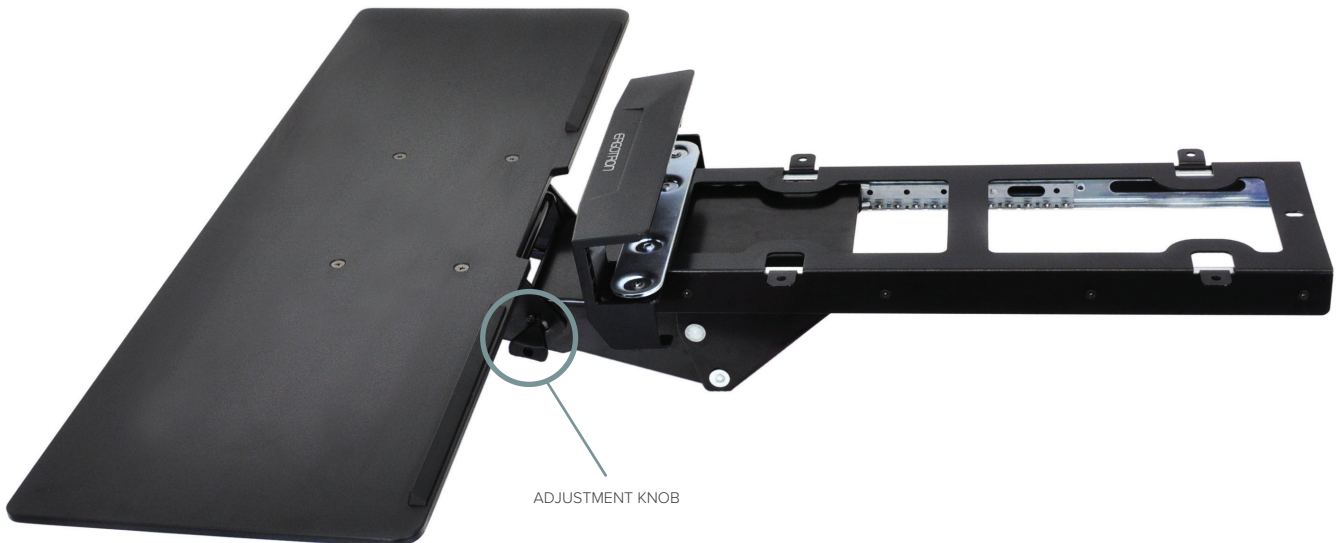

- Single knob adjustment for both height and tilt settings
- Tray dimensions: 26.9" x 8.9" (68,3 x 22,6 cm); large surface designed specifically to accommodate ergonomic keyboards
- Compatible with desktop worksurfaces from .75" (1,9 cm) up to 1.5" (3,8 cm) thick
- Extend/retract range 10.75" (27,3 cm)
- Mounting options:
Attaches with front-clamp and a single screw (required for greater stability)

Attaches with four screws (supplied with product)
- Designed to meet ANSI/BIFMA X5.5-2008 requirements

ADJUSTMENT KNOB
